## Google Meet

Dear Parents and Carers,

We are really pleased to see that so many children are enjoying their online learning at home. We have been looking at ways to enable classes to work together and join in discussions with their class teacher and friends. In order to do this, we are expanding our use of Google Classroom by introducing Google Meet to establish some interactive sessions where teachers and children can discuss learning together. The conversation in these sessions are automatically recorded for safeguarding purposes. Please note: it is children and teacher's conversation that are recorded. No images of children are recorded.

Please notify the school if you do not wish your child to take part in these sessions as the recording is made automatically with the consent of all participants.

The teachers will share on the Google Classroom, class page, when these sessions are taking place in advance so that you are fully aware of when the sessions will be happening.

Children will be read and be encouraged to discuss the 'Responsible User Agreement' by their teacher in the first session. We would like a responsible adult to be there with them.

Parents / Carers can support children by:

- Providing children with a workspace that is quiet and safe with an adult nearby if necessary.
- Making sure your child is dressed appropriately.
- Sessions are not recorded, shared or comment on public forums about individual teachers.

**Please contact the school if you have any questions or do not want your child to take part in Google Meet sessions.**
